Short info:

10 years it takes for a good wine to mature and develop a tasty bouquet.

Exactly the same counts for **GurD**, the constant value in Swiss Metal.

V.O. (vox, guit), Tschibu (drums), Franky (bass) and Spring(git) present their testimonial in April 2005: The Live Album and DVD "**10 Years Of Addiction**" include the euphorically celebrated anniversary-show, recorded last year at the famous Z7 club in Pratteln!

All the musical highlights of that rocking decade, energetically performed by all present and former **GurD** members plus guest musicians and an Allstar-version of the S.O.D.-Song "United Forces" ensure 2 hours of metal, groove and burning ears!

Made by the Polycore-team (a.o. Destruction, Rage), the DVD also includes videoclips and an audiogallery which contains samples of all **GurD**-albums so far.

Produced by V.O. Pulver you can be sure to be delivered a sound of great quality which fully meets the requires of this compilation.

There is no reason to walk past **GurD**'s "10 Years Of Addiction". Get your copy of this metal-event, uncork the bottle and be a part of these 10 years of sweat, groove and loud passion!
